

MAX resonance frequency	$f_0 \text{ max}$		MHz
MIN resonance frequency	$f_0 \text{ min}$		MHz
number of turns	N_{max}		
counter clock-wise turns ↗	higher f_0 ↑		
clock-wise turns ↘	lower f_0 ↓		

- use only supplied tuning tool
- actuate tuner carefully
- do not apply too much pressure or torque
- keep tuning tool coaxial
- tuner might not be perfectly orthogonal to box
